

Diagnosis and Management of Myeloid Malignancies

Monday 22nd October 2018

Education Centre (Dept. 17), The Christie, Manchester, M20 4BX

Overview

This is an exciting opportunity for nurses and AHPs, to attend a study day focusing on Myeloid Malignancies. We have a variety of expert speakers. The day will focus on the diagnosis and management of Myeloid Malignancies. There will be sessions on the Myeloid disease groups, their treatments, novel therapies, ethics and consent, geriatric hematology and living with myeloid malignancies.
